

COHILLS® BUBBLE GUM LIQUID RELEASE

Cohills Bubble Gum Liquid Release is a clear parting agent specifically designed to keep mats and stamping tools from sticking to the still wet concrete. These parting agents create a barrier between the mat and the concrete surface, allowing a clean, non-staining, non-sticking surface every time. This exclusive formula contains mild chemicals and additives that not only prevent damage to the mat or stamp, but help to prolong their life expectancy as well. Cohills Bubble Gum Liquid Release may be used on all types of concrete surfaces including but not limited to polymer overlays, concrete countertops, textured or stenciled concrete surfaces, etc. Designed for use on both interior and exterior surfaces, this clear formula has a pleasant bubble gum odor and will fully evaporate at a slow rate leaving absolutely no residue behind.

Product Availability & Coverage

- Cohills Bubble Gum Liquid Release is available in 1 gallon containers, 5 gallon pails and 66 gallon drums.
- Product coverage is approximately 250 sq. ft per gallon.

Directions for use:

- Using a pump sprayer, apply a generous amount of Cohills Bubble Gum Liquid Release to the still wet surface. Apply material to a small area (approximately 10 - 15 sq. ft.) to ensure the best results. If used in too large of an area, the material may evaporate before the mats can be placed on the concrete. This will result in poor release and wasted material.
- Release will evaporate and leave no residue on the concrete surface.
- Powdered color release agents may be incorporated into the solution and sprayed. This method requires constant agitation of the material to keep the powdered release agent properly dispersed.

Precautions:

- **DANGER: FLAMMABLE LIQUID**
- Recommended for use only by professionals.
- Never apply around heat sources such as water heaters, furnaces, etc.
- Cohills Bubble Gum Liquid Release should be used in a well ventilated area.
- Prior to use or handling of material read the **Material Safety Data Sheet**.
